PROFILE

Aspiring Artificial Intelligence professional seeking an entry-level position in a reputed organization to leverage skills in Python, Machine Learning, Data Analysis, Natural Language Processing, and Computer Vision. Proficient in data preprocessing, model building, and predictive analytics, with a strong focus on developing intelligent systems and solving real-world problems. Eager to learn emerging technologies, work with large datasets, and contribute to scalable, data-driven solutions in a dynamic environment.

Python Programming Intern | IBase Electrosoft | 21 /0/25 - 28/07/25
Gained hands-on experience in Python programming through Ibase Electrosoft, working on basic concepts including data types, functions and control structure. Practiced problem-solving and built simple applications while improving , code readability, understanding of core programming fundamentals, logical thinking and structured coding approaches skills for real tasks and learning.

PROJECTS

Fitness Form Guidance System | GITHUB

- Developed an ML-based fitness form detection system using pose estimation for real-time exercise tracking.
- Implemented posture correction and personalized workout feedback to improve exercise accuracy.
- Integrated a break reminder system to promote healthy workout habits and reduce fatigue.

Tech : Python, OpenCV, MediaPipe, Machine Learning, NumPy, Tkinter

CareerForge-AI | GITHUB

- Developed an AI-powered Career Mentor for resume parsing, ATS scoring, and career guidance using Flask, NLP, OCR, and Machine Learning.
- Implemented skill extraction, job matching, career prediction, and AI-based interview question generation.
- Deployed the application using Docker and Render with automated resume analysis features.

Tech : Python, Flask, MySQL, NLP, spaCy, Tesseract OCR, Machine Learning, HTML, CSS, Bootstrap, Docker, Render, ReportLab,

AI - Health Report Simplifier | GITHUB

- AI system to analyze and optimize medical reports into simple, patient-friendly summaries
- Extracts and processes report data using NLP techniques for better understanding
- Highlights key health insights to support informed decision-making

Tech: Python, NLP, spaCy, NLTK, OCR

LitRewview.ai Smart arXiv explration and contextual analysis | GITHUB

- Developed an AI-powered system for research paper search and recommendation.
- Used NLP for keyword extraction, filtering, and automatic paper summarization.
- Integrated ML models and research APIs to deliver personalized paper recommendations.

Tech Stack: Python, NLP, Machine Learning, Streamlit, Scikit-learn, arXiv API, Semantic Scholar API, Pandas.

SKILLS

Technical Stack: Python, Flask , TypeScript, HTML, CSS, SQL, MediaPipe , OpenCV.
Technologies: Machine Learning, Deep Learning, NLP, CNN, TensorFlow, PyTorch, OCR
Tools: VS Code, Git, GitHub, Google Colab , Vercel, Microsoft Excel (Data Processing).

CERTIFICATIONS

- | | |
|--|------------|
| • Python Programming by MyCaptain | April 2026 |
| • 3 Days Digital Marketing Workshop by Zaptriq AI Academy | March 2026 |
| • AWS Solutions Architecture Job Simulation by Simplilearn | Jan 2026 |
| • AI Tool & Prompt Ai Foundation Program by NexaLogics | Jan 2026 |
| • Generative AI Studio by Simplilearn | Dec 2025 |
| • IEEE Conference Publication, 3rd International Conference Research Paper: “Review of Fitness Form Guidance Using ML with reference to SitSmart Coach ” | |

EDUCATION

Degree	Institute and Location	Percentage / CGPA	Year
B. Tech in Artificial Intelligence	G H Raisoni College of Engineering and Management, Nagpur	CGPA: 8.93	2024-2028
Higher Secondary (12th Grade)	Nadekar Jr. Collge of Science , Narkhed	78%	2024
Secondary School (10th Grade)	Orange City Convent , Narkhed	82%	2022

Activities

- IEEE Member of Region 10 , Nagpur Section , Nagpur Section , Maharashtra Setion at GHRCEMN , Nagpur
- Event Manager - AI Department at GHRCEMN , Nagpur
